Your Wheat Crop

need cost you only about one-half to sow if you will send me your name and address and the names and addresses of two neighbors who grow wheat and tell how many acres you will sow.

EXAMPLE

If you sow 20 acres you will use around 40 bushels of your wheat (at 3 bu. per acre). Perhaps you will clean and grade it and sow 4 1/2 bu. 40 bushels are worth at market price about \$50.00. We will send you a better variety, almost winter proof and extra-ordinarily productive, to sow the 20 acres for \$20.00. You will have cash left..... \$30.00

Read What Other Farmers Say About This Wheat

"My crop was 70 acres and yielded 49 bu. per acre, 3 430 bushels."—Jarret. "It more than doubled the yield of others."—Clark. "Will yield twice as much as others. Just as represented."—Curry. "Everybody says it is the finest they ever saw. I will sow 100 acres."—Gordon. "Yielded 55 bu. per acre. Beats any wheat ever raised here."—Horton. "The possibilities of this wheat are unlimited."—Easley. "It is as representative as I have 30 acres of it."—Keener. "I wish I would have got ten enough to sow my whole crop."—Thompson. "This is my third year and I have as fine a crop as I ever saw."—Wishmeyer. "I believe it will be the only wheat raised when farmers learn what it is."—Smart. "I will sow nothing else."—Reyers. "If I thing enough of it to sow my entire crop of it."—Phillips. "I think it is the coming wheat."—Webster. "It is far better than I expected."—Jackson. "I have 5 acres of the wheat and believe it will thresh 500 bu."—Austin.

A DOUBLE MONEY MAKER

If you are going to put out a crop of wheat you better get my proposition for seed for one acre or 100 acres. I mean exactly what I say. Send your address and two others who will sow wheat and get full particulars, hundreds of printed letters, reproduction of photographs, etc. It will mean money saved now and a bigger crop next harvest. Start now to make more money from wheat.

The supply of this Double-Money-Maker-Wheat is limited. This suggests prompt action. Write me today.

HOUSE ACCEPTS SENATE'S PLANS

Navy Bill Provides for Building of 157 War Vessels in Next Three Years.

Washington, Aug. 16.—Congress has virtually completed the national defense program by finally approving the great increases in naval construction and personnel written into the naval bill and urgently supported by the administration.

Accepts Building Program.
The house accepted the building program, to which its conferees on the measure had refused to agree, by a vote of 283 to 51, with seven members present not voting. The personnel increases, on which there also was a disagreement in conference, were approved without a record vote.

The personnel and construction sections, which already have the approval of the senate, authorize an increase in enlisted men to 74,700, and the building of 157 war vessels within the next three years, with four battle cruisers and four battleships included among the ships for 1917.

Previously the house refused to adopt a continuing building program, had authorized only five capital ships, all of them battle cruisers, and had provided for a personnel of only 65,000.

Differ on Some Details.
On several less important sections, including appropriations for improvement of navy yards, the house insisted on its disagreement to senate increases and voted to send the bill back to conference for settlement of these points. An early agreement is expected, however, and the measure may be sent to the president for his signature within a week.

The vote by which the house accepted the senate increase in the building program was non-partisan, the majority of both Democratic and Republican voting in the affirmative. Of the 51 members who voted in the negative, there were 35 Democrats, 15 Republicans and one Socialist.

The defense program, which approval of the naval bill by the house virtually completes, has been the most important achievement of the session and has involved appropriations aggregating \$661,418,000.

In addition to the navy bill, it included reorganization of the regular army and national guard, bringing the enlisted peace strength of the army to 187,000 men, capable of expansion to 220,000 men in time of stress, and providing a federalized national guard, which at full strength will number 450,000 men.

BARS 'TWILIGHT SLEEP'

JOHNS HOPKINS HOSPITAL DISAPPROVES OF CHILD BIRTH DRUG.

Baltimore, Aug. 16.—Johns Hopkins hospital has set its stamp of disapproval on the general use of "twilight sleep" in child birth.

After more than a year's use of the "twilight sleep" drug, scopolamine, it has been found that it could be safely used only under exceptional conditions. Question of the proper dose proved so intricate that absolutely no chances could be taken.

The effect of administering scopolamine was the expected one of deadening the intense pains of labor, but it developed also the almost complete cessation of muscular activity. As a consequence the life of the child became imperiled.

VISITED BY HUNDREDS

YOUNG, OLD, BLIND AND INFIRM TRAVEL TO NOTED CATHOLIC CHURCH.

Carey, O., Aug. 16.—Hundreds of people coming from all parts of Ohio worshiped at Our Lady of Consolation shrine here. Special trains were run over all lines leading into Carey, and a large pilgrimage arrived over the Big Four from Cleveland.

Young and old, crippled, blind and infirm, with faith unflinching, entered into the services. Sixteen priests officiated. Tradition has it rain has never fallen on this procession since it originated in 1875. Each year miraculous cures are reported.

Cast Many Votes.
Fostoria, O., Aug. 16.—Martin Adams, aged 88, a life-long resident of Fostoria, has the record of having voted in Fostoria every year with the exception of one year for 66 years. In 1864, during the Civil war, he missed his vote.

Big British Loan.
New York, Aug. 16.—Official announcement that a two-year \$250,000,000 5 per cent loan will be made to the British government will be forthcoming very soon, it is learned on high authority.

Fireman Fatally Hurt.
Delaware, O., Aug. 16.—Walter Calleys of Columbus, Hocking Valley fireman, stood on his freight engine reaching out for orders as he passed the interlocking switch. He was struck by the semaphore and perhaps fatally injured. He is in a hospital here.

Live Wire Kills Man.
Medina, O., Aug. 16.—C. F. Fusselman, 28, of Lodi, was instantly killed at the substation at Chippewa lake when, in adjusting a wire, he accidentally took hold of a high-power wire, 22,000 volts passing through his body.

GETTING READY FOR RAID

VILLA REPORTED TO BE MASSING TROOPS NEAR MEXICAN RAILWAY.

El Paso, Aug. 16.—Private dispatches received here say Villa is massing his command close to the Durango border near the line of the Mexican National railway.

While the dispatches did not state the object of the move, it was believed here that the bandit leader may attempt to seize a train and make a dash on Tyrone or some other large city. Gen. Francisco Gonzales, commanding the Mexican forces in northern Chihuahua, has issued a statement in Juarez emphatically denying reports that Gen. Jose Inez Zalazar, a notorious revolutionist, had been executed and saying Zalazar was being held for trial in the penitentiary at Chihuahua.

Old Paper Cost Soars.
New York, Aug. 16.—The paper famine is reflected in an auction sale here of old paper, ordered by David Ferguson, supervisor of the City Record. One lot of 9,000 pounds, composed of unsold copies of the City Record, brought \$1.65 per hundred pounds. Another lot of unsold old paper, weighing 6,000 pounds, brought \$2.60 per hundred. Normally sales of such paper bring from 20 cents to 50 cents a hundred.

Families Homeless.
Hannibal, Mo., Aug. 16.—Five hundred families were made homeless here and hundreds of acres of land were flooded by a sudden rise in Bear creek, which flows through the city. The flood was due to a four-inch rain. No lives were lost, according to available reports, although many narrowly escaped drowning.

Struck on Head, Dies.
Wooster, O., Aug. 16.—Officers at Sterling found the body of an unidentified man in a room at the Old Valley house in the village. The man, it is said, was struck over the head in a rough and tumble fight.

HERE'S TO LAUGHTER

Here's to laughter, the sunshine of the soul, the happiness of the heart, the heaven of youth, the privilege of purity, the echo of innocence, the treasure of the humble, the wealth of the poor, the head of the cup of pleasure; it dispels dejection, banishes blues and mingles melancholy, for it's the foe of woe, the destroyer of depression, the enemy of grief; it is what makes kings envy peasants, plutocrats envy the poor, the guilty envy the innocent; it's the sheen on the silver of smiles, the ripple on the water's delight; the glint of the gold of gladness; without it humor would be dumb, wit would wither, dimples would disappear and smiles would shrivel, for it's a glow of a clean conscience, the voice of a pure soul, the birth cry of mirth, the swan-song of sadness.—N. New Novelties Will Interest Chautauquans

AMONG the interesting novelties to be heard at the Chautauqua will be the lecture on "Music—Its Yesterdays and Tomorrows," by Robert H. Wilkinson. In this lecture Mr. Wilkinson will trace the history of music, showing its development and illustrating the different types of music on the Victrola Grand.

Everybody needs to know something about music, and the ability to talk about it interestingly and understandingly is rated as a real accomplishment.

It's a lazy man's belief that all things come to those who wait for others to do it for them.

THE hail fellow well met, the man who spends as he goes, is popular just so long as he is a hail fellow well met, so long as he spends as he goes. His fair weather friends leave him the minute he is in financial distress. Don't be one of these kind. If you are making big money plan to set aside a certain sum in bank. You'll find that if adversity comes a goodly bank balance is your best friend. If you already have a bank account make it a point to keep a healthy balance, a good margin to work on. OUR CRIMINAL WASTE OF FOOD

When a calamity such as the San Francisco earthquake, the Dayton flood or the sinking of the Titanic occurs, the world stands aghast at the wasteful waste of life and property as measured in dollars and cents, and the whole world pays the penalty. But these happenings cannot beavered. They are costly but infrequent—part of the price of our modern civilization, and constitute but a small fraction of the waste cost of the world.

We wouldn't burn a forest knowingly, but we would burn the lumber that comes out of it. Nations do not waste their big things willingly. Only a great war can ever bring a nation to the point of destroying life and property recklessly, as part of the game. But there is a waste that is going on constantly that is more costly even than war, as costly as war may be; for war accomplishes something—at least it settles a quarrel. The waste we refer to is the waste of little things, for these in the aggregate prove as costly, although less noticeable, than the waste of larger ones.

While little indulgences, such as drinking, smoking, candy and sodas, are not particularly waste, they are not profitable expenditures. They get us nowhere and do no particular good. But even passing these as permissible, the most inexcusable waste is in the line of food. It is not what comes in the front door, particularly, that counts, but what goes out of the kitchen.

The total cost of food in this country cannot be even approximated, but eminent authorities place a dollar a day as a fair average for the food value of the American people. This means a cost of about \$5,200,000,000 each year. So eminent an authority as Doctor Wiley estimates that at least one-quarter of this is wasted. And this is entirely possible. Notice as you dine at restaurants how much untouched food goes back to the kitchen—not to feed some poorer mortal, but to go out in the garbage. It seems so perfectly natural for some people to merely play with a dinner, sending choice cuts of meats and fowl back to the garbage can. We waste more than money cures itself. If the Doctor is right, this means a food waste of \$1,300,000,000 a year and the pity is it does no one any good—not even the pigs, for they would thrive better on a less costly diet. One large country hotel a few years ago lost most of its herd of 300 hogs from feeding "swill will." This food, if conserved, would feed all the poor. It would build ten battleships. It would pay off the national debt in a single year. It would run the government for twelve months.

The waste of food costs itself, for soon there is no more to waste. There comes a time when the bank runs dry and the easy money flows no more. But this frightful waste of food can go on year in and year out, and yet we wonder why living costs so high. The waste of food costs itself, for soon there is no more to waste. There comes a time when the bank runs dry and the easy money flows no more. But this frightful waste of food can go on year in and year out, and yet we wonder why living costs so high.
